Notes:

- Underlying portfolio yield is an annualised percentage measure of interest and dividend income earned by the portfolio net of fee and expenses.**
- Average payout yield is the annualised rate of return of the dividends paid to shareholders since inception and is calculated based on a simple average of the annual dividend yield. For share classes that have been incepted for less than one year, it is calculated as the cumulation of payout yields since inception.**
- Average distribution (since inception per annum) is calculated based on a simple average of dividend distribution per share per annum, since inception. For share classes that have been incepted for less than 1 year, it is calculated on a cumulative basis for the year. For share classes that have been incepted for more than 10 years, it is calculated based on a simple average of the dividend distribution per share per annum for the past 10 years.**
- Annualised volatility of total return is measured by the standard deviation of total returns of the Fund annualised since inception. For share classes/Fund incepted for less than 1 year, there will be no disclosure of the annualised volatility.**

Information contained herein is provided for information purposes and does not constitute financial advice or recommendation with respect to the Fund and is prepared without regard to the specific objectives, financial situation or needs of any particular person who may receive it. Investors should read the prospectus and the Product Highlights Sheet and seek financial advice before deciding whether to purchase shares in the Fund. The value of the shares of the Fund and the income accruing to them, if any, may fall or rise. Past performance of the Fund or any economic trends or forecast, are not necessarily indicative of future performance of the Fund. The Fund may use or invest in financial derivative instruments for portfolio management and hedging purposes. Investments in the Fund are subject to investment risks, including the possible loss of the principal amount invested. Distributions are not guaranteed and may fluctuate and may be paid out of capital. Please note that payment of distributions out of capital effectively amounts to a return or withdrawal of the principal amount invested or of net capital gains attributable to that principal amount. Actual distribution of income, net capital gains and/or capital in the Fund will be at the manager's absolute discretion. Payments on dividends may result in a reduction of NAV per share of the Fund. The preceding paragraph is only applicable if the Fund intends to pay dividends/ distributions. Performance with preliminary charge (sales charge) is calculated on a NAV to NAV basis, net of 5% preliminary charge (initial sales charge). Subscriptions may only be made on the basis of the latest prospectus and Product Highlights Sheet, and they can be obtained from WMS or Fund distributors upon request.

Important Notes:

Distribution payouts and its frequency are determined by the manager, and can be made out of income, capital or both. Investors should note that the payment of dividends directly out of capital may result in an immediate reduction of the net asset value per share of the Fund. Distributions are not guaranteed and may fluctuate. Past distributions are not necessarily indicative of future trends, which may be lower.
